RE: Comments to D1 FFA SMP FY 14
Marine Corp Recruit Depot (MCRD)
Parris Island
SC6 170 022 762

Dear Mr. Owens and Mr. Harrington:

The Division of Waste Management of the South Carolina Department of Health and Environmental Control (Department) completed the review of the above report received June 17, 2013. The Department reviewed the document with respect to applicable sections of the South Carolina Hazardous Waste Management Regulations (SCHWMR). Based on this review the Department has the following comments.

The Department's review is based on the information presented by MCRD to date; any information found to be contradictory may require further action. If you have any questions regarding this issue, please contact me at (803) 898-0368.

Sincerely,

A handwritten signature in black ink, appearing to read 'Meredith Amick', followed by a long horizontal line extending to the right.

Meredith Amick, P.E., Environmental Engineer
DOD Corrective Action Section
Division of Waste Management

Engineering Memo
Prepared by Meredith Amick
Marine Corp Recruit Depot (MCRD)
June 18, 2013

1. Please note once the Department concurs with dates set in Table 1, our concurrence is only for reviews scheduled within FY14. Reviews dates for out year documents will be agreed upon in subsequent SMP documents.
2. Page 8
This section states, "Sites 7, 8A, 8B, 46, 47, 48, 49, and 53 are going to have an SI performed." However, the SI work has already been performed at Sites 7, 8A, and 8B. Please correct this statement.
3. Page 19 SWMU 16
A deep water well is mentioned in this section and it states that the well was found and the only damage was to the lock. However, it was the Department's recollection that the well was never found. Please clarify.
4. Page 19 SWMU 21
Please update this section that states the OWS removal is to occur in FY2011, as the removal did not happen.
5. Page 25 MRP Sites
This section states, "There were originally eight UXO sites that required investigation. UXO 1 – Grenade Range was recommended for no further investigation. This was approved by the Navy and MCRD. Therefore, there are only seven UXO sites recommended for further investigation." From the July 2012 Partnering team meeting the Department understood that once the No Further Action Explosive Safety Submission was submitted to DDESB through MARCORPSYSCOM and approved, it would be forwarded with a Navy cover requesting NFA designation in the SMP, etc.
6. Page 27 UXO 4a
Please clarify how the presence of rockets "does not represent an unacceptable risk."
7. Table 1
The dates for FY 14 do not match the dates provided on Table 1B that was discussed through many conference calls with the team. Please ensure team agreed upon dates are listed in Table 1.
8. Table 1B
Although Table 1B is not a part of the SMP it is an integral part of the Parris Island Partnering Team. Anytime an extension is requested, Table 1B should be updated to show the effect on the entire FY 14 schedule and attached to the request.
9. Table 2
 - The status sections of Sites 9, 16, 27, and 55 should match.
 - Site 46 states it is to be grouped with Site 14; however, Site 14 is requested to be closed out in the latest SI report. Please clarify.

- Site 53 status should mention the debris removal as part of the base construction activities.
- Site 54 states that the marsh area is to be investigated with Site 14; however, Site 14 is requested to be closed out in the latest SI report. Please clarify.
